

Polywater[®] Solar Panel Wash

Polywater[®] Solar Panel Wash is specially formulated to clean all types of solar panels without causing aluminum rails and mounting apparatus to oxidize or abrade. Many common soaps used for washing cars or windows are formulated with alkalines that promote oxidation and require deionized water for a spot-free rinse.

Dust, bird droppings, pollution, pollen, tree sap, plant matter residue, etc. all reduce the overall effectiveness of solar panel generation capacity. Clean and maintain panels on a regular basis to maximize system output and longevity.

Usage

For best results product should be used at full strength, or it can be diluted for lighter soiling.

- For light soils, dilute 1:8
- For pressure washers, hose sprayers, etc., dilute 1:20

Package Size	Polywater [®] Solar Panel Wash Product#	Units/Case
5-gallon pail (18.9 liters)	SPW-640	1
1-gallon pail (3.8 liters)	SPW-128	4
